

# Pre-Kindergarten Check-Up

The Pre-K Learner Survey is a resource that will introduce you to ten big ideas and goals for 4-Year Olds / Pre-Kindergarten children. This resource is a synthesis of the National Pre-K and many states' standards, but it has been reworded in child-friendly language.

During a Learner Check-Up, you or your Co-Teacher will ask your learner about 20 questions to get a "snapshot" of your child with regard to these ten big ideas. The Screening Tool is NOT a formal assessment or a way to identify disabilities. Rather, an opportunity to combine a Co-Teacher's and a parent's or caregiver's insights to provide more clarity about a learner's areas of strength, passions, and struggles.

Following a Pre-K Check-Up, you and your Co-Teacher can explore how you can connect everyday learning moments to developmentally appropriate activities, behaviors, schoolwork, and personal goals.

## **Big Ideas fall into two categories:**

- Goals for Being by Myself/Being with Others
- Goals for Learning about the World Around Me

## **The Ten Big Ideas Are:**

- I can do activities by myself and with others.
- I can show curiosity and explore creativity.
- I can manage my feelings and emotions.
- I can make good choices about how I use my time.
- I can take care of my body.
- I can use my words, writing, and drawing to communicate.
- I can use math to describe and interact with the world.
- I can use social studies to understand and contribute to my community.<sup>1</sup>
- I can explore the Physical, Life, Earth/Space, and Engineering Sciences to describe and improve the world around me.
- I can express myself through drama, music, and visual arts

<sup>1</sup> Social Studies includes the study of literature, economics, geography, history, religion, and philosophy.
